Will Okanumeh

Test Lead | Test Automation Lead |

willokans@gmail.com   085-8556603

Summary

I enjoy being part of, as well as leading, a successful and productive team. I am quick to grasp new ideas and concepts, and to develop innovative and creative solutions to problems. I am able to work well on my own initiative and can demonstrate the high levels of motivation required to meet the tightest of deadlines. Even under significant pressure, I possess a strong ability to perform effectively.

Experience

Test Lead | SDET Lead (AVP) @ **Deutsche Bank**
September 2017 – Present

Test Lead & Test Automation Lead: -
- Build/Architect test automation framework(s) development from scratch for:
  -UI Testing
  -API/Micro services and Database Testing
  -Mobile Testing – Using chrome emulators, physical devices and Selenium Appium
  Performance Testing
- Estimating and planning out test cycles
- Develop our current test CI/CD pipeline with Bitbucket and Teamcity
- Working in a safe Agile environment
- Defining/generating Test Plan & Test Strategies across Deutsche Bank Salesforce Strategic Program
- Working with Salesforce scrum teams and leadership to develop meaningful metrics around automated testing
- Driving automation testing standardization across multiple scrum teams in area such as:
  - Selenium Test Framework (UI & API & Mobile)
  - Automated testing code standards
  - BDD implementation using tools such as Cucumber
  - Integration of automated testing using Rest and SOUP
- Training of new offshore resources/talent on test automation and agile test methodologies throughout the life cycle of the project.
- Lead, Organise and run UAT efforts (e.g. workshops for UAT)
- Managing testing across multiply salesforce development projects
- Planning, managing and co-ordinating day to day testing activities
- Co-ordination of test phases across different platform
- Maintain test environment
- Run a bi-weekly call on test engineering/methodology to develop and share engineering knowledge across multiple test teams
- Currently experimenting on how data engineering could help identify bottle-neck during our SDLC and provide mitigation plan
- Some experience working on Salesforce project team in the role of code development and testing
- Develop, deploy and maintain Salesforce.com reports and dashboards.
- Some experience in Salesforce Apex and Visualforce
- Participate in technical design sessions

Sr. Software SDET | Scrum Master @ **Ellucian**

Jan 2017 – September 2017

Lead an Automation scrum team tasked with the responsibility of Designing, Automating and building Regression pack using Selenium with Java for Functional testing and JMeter for none-functional testing.

Senior SDET (Automation Lead) @ **Crème Global**

May 2016 – Jan 2017 (9 months)

Responsible for the development (from scratch) & Maintenance of automated test/test suites frameworks using below tools

- Java
- Selenium WebDriver
- TestNG Framework
- Apache maven
- Cucumber
- Jenkins
- Bitbuket

Mentor manual testers on test automation using selenium and JMeter
Defect Management with Jira
Test Estimation

Senior Automation Engineer at **Sumitomo Mitsui Banking Corporation, JRI America** April 2015 – May 2016 (1 Year 2 months)

- Design, implement and execute manual test cases.
- Design, implement and execute Automation test cases.
- Test plan creation for both functional and non-functional testing
- Involved in initial scoping of projects, which involved meeting with business users and Loan IQ developers to determine different the phases and what needs to be automated.
- Create high level flow diagram to break business process
- Facilitate knowledge transfer from out offshore test team
- Leading the performance test effort of both windows and web based applications (KYC)
- Test on an ad-hoc basis when needed and reporting defects via QC and Jira
- Hands-on experience with automated testing tools like Selenium WebDriver, Automation anywhere, HP Load-runner, HP UFT/QTP and SOUPUI for web service testing
- Solid knowledge of SQL and sql scripting
- Ensure QA processes and procedures are documented, understood and followed.
- Maintain QA Test Environments as required both locally and globally within the Bank
- Mentoring/Upskilling new intakes/graduates and team members on test automation using HP QTP/UFT, Selenium WebDriver as well as performance testing tools like JMeter and HP Load-Runner
- Hands-on experience working with programming and scripting languages like Java, JavaScript, C#, swift and VB Script

Software QA Engineer (Freelance) at **uTest**

December 2014 - Present (5 year 2 months)

- Exploratory software testing on Web and Mobile application
- Design, implement and execute manual test cases.
- Involved in creating Test Automaton scripts using:

- o Selenium WebDriver,
- o Cucumber and TestNG
- o HP UFT
- o Load Runner & JMeter

Software QA Engineer at **Eircom Business Solutions**
August 2012 - April 2015 (2 years 9 months)
- Design, implement and execute manual test cases.
- Liaising with developers to swiftly resolve defects/bugs using HP QC
- Monitoring testing process, identifying and logging test failures
- Develop and maintained selenium test framework in C#
- Tracking test case execution
- Responsibility for performing:
    - o UAT E2E testing
    - o User Acceptance Test
- Facilitate training/communication programs for our SME's retail stores around the country

Net Promoter Score & QA at **Eir Ireland**
June 2011 - August 2012 (1 year 3 months)

Team Lead at **Eir Ireland**
October 2008 - June 2011 (2 years 9 months)

Carpentry at **Shed World Ltd**
June 2007 - May 2008 (1 year)

Assistant Site Engineer at **Fleming Construction**
January 2006 - June 2007 (1 year 6 months)

Certifications /Course
- **Salesforce Certified Platform Developer 1 (***Salesforce - March 2020)*
- **IBM Data Science (Professional Certification) (***January 2020)*
- **Salesforce Certified Administrator (***Salesforce - December 2018)*
- **Prince2 Management (Foundation) (***APMG-International January 2015 to January 2015)*
- **Software Testing (Foundation) (***ISTQB - 2014 to October 2014)*
- **Test Automation: Fundamentals (**SQS Group August 2015 to August 2015)
- **Oracle OCA Java SE8 Programmer I (1Z0-808)**

Education
National College of Ireland
Higher Diploma in Science in Computing (Mobile Application Development) 2018 - 2020

Cork Institute of Technology
BSC, Construction Management, 2002 - 2006
